Plant and Soil

CONTENTS Vol. 141, Nos. 1-2, 1992

Preface vii
Dedication xi

B. B. Bohlool, J. K. Ladha, D. P. Garrity and T. George, Biological nitrogen fixation for sustainable agriculture: A perspective 1
M. B. Peoples and E. T. Craswell, Biological nitrogen fixation: Investments, expectations and actual contributions to agriculture 13
P. A. Roger and J. K. Ladha, Biological N_2 fixation in wetland rice fields: Estimation and contribution to nitrogen balance 41
I. Watanabe and C. C. Liu, Improving nitrogen-fixing systems and integrating them into sustainable rice farming 57
T. George, J. K. Ladha, R. J. Buresh and D. P. Garrity, Managing native and legume-fixed nitrogen in lowland rice-based cropping systems 69
I. R. Kennedy and Y.-T. Tchan, Biological nitrogen fixation in non-leguminous field crops: Recent advances 93
H. H. Keyser and F. Li, Potential for increasing biological nitrogen fixation in soybean 119
S. F. Ledgard and K. W. Steele, Biological nitrogen fixation in mixed legume/grass pastures 137
K. Fujita, K. G. Ofosu-Budu and S. Ogata, Biological nitrogen fixation in mixed legume-cereal cropping systems 155
S. K. A. Danso, G. D. Bowen and N. Sanginga, Biological nitrogen fixation in trees in agro-ecosystems 177
J. Ishizuka, Trends in biological nitrogen fixation research and application 197
